Subject: Microsoft Settlement

Your Honor,

It is my understanding that the forthcoming settlement involving the anti-trust case against Microsoft in fact does not uphold what other federal courts have determined necessary to break-up this monopoly. It is my opinion that this deal should not be entered into and that an agreement that more closely reflects the rulings of the other courts be enforced. I am certainly no expert, but it would seem that this agreement simply benefits Microsoft and does not really promote free enterprise in their areas of technology and development.

Respectfully Submitted,
